

Global Select Portfolio

December 2023

Objective

To provide capital growth over the medium to long term through a diversified portfolio of funds investing in global equities.

Performance Comparator:	IA Global Sector average
Launch Date:	30/11/2020
Expected Yield:	1.11%
Portfolio OCF:	0.84%
Initial Fee:	Nil
Management Fee:	0.10%
Lowes Risk Level:	3+

Strategy

Investing only in equities, the portfolio is designed to maintain a global exposure and focusses on funds whose remit is to invest in areas of the world's equity markets which, although possibly more volatile, we believe offer the prospect of higher long term capital growth. In line with the desire to maintain a balance of investments around the globe, UK equities will usually represent at most 20% of the portfolio.

Performance to 29 December 2023¹

Performance is calculated assuming all income is reinvested and is net of underlying fund charges but gross of Lowes' investment management charge, platform charges and any ongoing advice fees. Deduction of these will have the result of reducing the illustrated performance. Please refer to your investment adviser or investment administrator for details.

Important

The portfolio is managed on a discretionary basis therefore the investment manager may make changes to the investments held without notice. Investors are agreeing to the investment model as recommended by an Adviser and may not be investing into the specific assets included in this factsheet. The factsheet will be updated and made available as soon as is practicable following a change made by the investment manager. Past performance is not a guide to future performance. The value of investments and any income from them can fall as well as rise and are not guaranteed, so you may get back less than you invested. If you invest in currencies other than your own, fluctuations in currency value will mean that the value of your investment will move independently of the underlying asset.

Consideration should be given to whether it is felt that the outcome of any risk assessment is accurate and advice should be sought for factors such as investment objectives, the investment term, attitude to risk, capacity for investment loss and the level of inflation. This illustrative document is intended for investors where advice has been given by Advisers. Models are prepared in accordance with the stated objective and not client circumstances.
