

## Mixed Investments 40-85% Shares Bond Portfolio

October 2025

### Objective

To provide a combination of both income and capital growth over the medium to long term.

<b>Performance Comparator:</b>	<b>IA Mixed Investment 40-85% Shares sector average</b>
<b>Launch Date:</b>	<b>29/09/2023</b>
<b>Expected Yield:</b>	<b>2.46%</b>
<b>Portfolio OCF:</b>	<b>0.70%</b>
<b>Initial Fee:</b>	<b>Nil</b>
<b>Management Fee:</b>	<b>0.10%</b>
<b>Lowes Risk Level:</b>	<b>3-</b>

### Strategy

The portfolio invests in a diversified range of funds across multiple asset classes, such as equities, fixed interest and alternatives. Investing in line with the parameters of the Investment Association Mixed Investment 40-85% Shares sector, this portfolio will always have at least 40% of its assets invested in equity funds but never more than 85%. Usually having the majority of its assets invested in equities, this portfolio should provide capital growth as well as allowing a certain level of income to be taken. Whilst exhibiting more volatility than the portfolios with a lower equity exposure, this portfolio would still hopefully provide some protection compared to a pure equity portfolio in a falling market. This portfolio does not invest in direct property, to make it more suitable to be held within a Bond wrapper.

### Performance to 31 October 2025<sup>1</sup>

Performance is calculated assuming all income is reinvested and is net of underlying fund charges but gross of Lowes' investment management charge, platform charges and any ongoing advice fees. Deduction of these will have the result of reducing the illustrated performance. Please refer to your investment adviser or investment administrator for details.

### Important

The portfolio is managed on a discretionary basis therefore the investment manager may make changes to the investments held without notice. Investors are agreeing to the investment model as recommended by an Adviser and may not be investing into the specific assets included in this factsheet. The factsheet will be updated and made available as soon as is practicable following a change made by the investment manager. Past performance is not a guide to future performance. The value of investments and any income from them can fall as well as rise and are not guaranteed, so you may get back less than you invested. If you invest in currencies other than your own, fluctuations in currency value will mean that the value of your investment will move independently of the underlying asset.

Consideration should be given to whether it is felt that the outcome of any risk assessment is accurate and advice should be sought for factors such as investment objectives, the investment term, attitude to risk, capacity for investment loss and the level of inflation.
