

Cautious Managed Bond Portfolio

April 2026

Objective

To provide capital growth over the medium to long term, mainly through income producing funds, making it suitable for those looking to make regular withdrawals, and with a focus on lower cost investments.

Performance Comparator:	IA Mixed Investment 20-60% Shares sector average
Launch Date:	28/02/2022
Expected Yield:	3.34%
Portfolio OCF:	0.33%
Initial Fee:	Nil
Management Fee:	0.10%
Lowes Risk Level:	2+

Strategy

The portfolio has been constructed so that asset allocation is in line with the investment restrictions of the IA Mixed Investment 20-60% Shares sector. The portfolio invests in equity, fixed interest and multi-asset funds, with a focus on lower cost options, where appropriate, but not at the expense of flexibility or an increase in internal risk. This portfolio does not invest in direct property, to make it more suitable to be held within a Bond wrapper.

Performance to 30 April 2026¹

Performance is calculated assuming all income is reinvested and is net of underlying fund charges but gross of Lowes' investment management charge, platform charges and any ongoing advice fees. Deduction of these will have the result of reducing the illustrated performance. Please refer to your investment adviser or investment administrator for details.

Important

The portfolio is managed on a discretionary basis therefore the investment manager may make changes to the investments held without notice. Investors are agreeing to the investment model as recommended by an Adviser and may not be investing into the specific assets included in this factsheet. The factsheet will be updated and made available as soon as is practicable following a change made by the investment manager. Past performance is not a guide to future performance. The value of investments and any income from them can fall as well as rise and are not guaranteed, so you may get back less than you invested. If you invest in currencies other than your own, fluctuations in currency value will mean that the value of your investment will move independently of the underlying asset.

Consideration should be given to whether it is felt that the outcome of any risk assessment is accurate and advice should be sought for factors such as investment objectives, the investment term, attitude to risk, capacity for investment loss and the level of inflation. This illustrative document is intended for investors where advice has been given by Advisers. Models are prepared in accordance with the stated objective and not client circumstances.
